- The team of Centrul FILIA in 2020
- Financial data
- Supporting us

Centrul FILIA is a feminist organization that makes women's voices heard through direct work in communities and advocacy activities, activism, awareness, studies, and analysis.

We want a solidary society in which the rights and diverse needs of women are respected and which offers equal opportunities to all people.

THE YEAR 2020 IN NUMBERS:

approximately 300 beneficiaries

65 hygiene and aliments packages and 30 clothing packages distributed

5 projects implemented

1 report abortion access

4 criminal complaints

1 CNCD complaint

Approximately 150 appearances in mass-media

1.852.157 reach on social media

Over 30.000 followers on Instagram

PRIORITY AREAS OF ACTION AND STRATEGIC OBJECTIVES

1. Community work

- Ensuring women's access to quality health services
- Increasing the civic involvement of women and teenagers in the community
- The development of an environment free of violence against women and girls in the community

2. Advocacy

- Enhancing a legislative framework regarding reproductive health and sexual rights
- The efficient implementation and enhancement of the public policies to prevent and combat violence against women and girls
- Enhancing the legislative framework regarding the balance between work and private life

3. Activism and awareness

- Increasing the awareness and public information regarding the violence against women and girls
- Increasing the awareness and public information regarding reproductive health and sexual rights
- The accountability of public actors regarding women's rights

4. Studies and data

- The creation of access for the large public to information about the interest areas of the organization
- Substantiation of public policies in the interest areas of the organization

IMPLEMENTED PROJECTS

Women during and after coronavirus: Information, Research, and Advocacy for the Gender Equality

The idea for this project came in March when we launched a campaign in which we raised 70 testimonials of women around the country regarding the way their life changed during the emergency. We know from the experience of the 2007 economic crisis that the period of times of crises, social or economic, affect women disproportionately. Despite all of these, they remain the great absents of governmental strategies.

The project took place in partnership with the National Agency for Gender Equality, with the financial support of Active Citizens Fund Romania. During the project, we created an informative campaign regarding how the COVID-19 pandemic affected women from Romania, in which we published 20 video testimonials. We began redacting the research on “The experiences of women during the pandemic. The actual status and recommendation for gender-sensitive post-crisis measures.”, which we wanted to constitute a start point in the development of some public policies which should address the specific experience of women to manage efficiently the issues generated by the pandemic.

In 2021, we will organize a Roundtable with deciders and we will start a petition for supporting the recommendations for gender-sensitive measures.

Making women's voices be heard! – Part two

In the year 2020, we continued the community work with women and youngsters from the initiative groups from Valea Seacă. Through the financing received from the Open Society Foundation, we organized meetings regarding the prevention and combat of violence against women and girls, reproductive health, and civic involvement. The pandemic situation stopped us from being physically together as often as we wished, but we stayed in touch permanently with our beneficiaries.

We participated in and facilitated a meeting between the United Nations Organization and the initiative group of women from Palamida, Valea Seacă, on the occasion of the ONU report regarding the situation of women and girls from Romania. Also, we organized individual therapy sessions for the women in the group, with two therapists from Bucharest. Given the pandemic, poverty has worsened and access to the workplace was restricted, FILIA team gave 65 hygiene and aliments packages in Valea Seacă, Bacău, and Timboesti, Vrancea, with the financial support of OSF and also the donations made through the Pago platform.

We formed a new initiative group of students from the American School in Bucharest. They did a lot of advocacy activities regarding the prevention and combat of sexual harassment in schools.

UP&UP – Upscaling trainers and educators’ competencies on gender-based violence to Upscaling awareness among young people against violence

The project is financed through the Erasmus+ program and is conducted together with the European Center for Equality, INCOMA - International Consulting and Mobility Agency, Sustainable Communication, The Union of Women Associations of Heraklion Prefecture, Telefono Rosa. In the period of time of October - to November, we applied a survey about the perception of the gender stereotype and the values followed in a relationship by 8 professors, 92 students, and 30 parents.

Later, we organized a training relating to stereotypes and gender roles with 27 students from Sf. Sava National College in Bucharest. Furthermore, we have been part of transnational online meetings during which there was realized the exchange of experience and good practices with the partner NGOs.

Safe from Sexual and Gender-Based Violence

During the SGBV project started in 2019, we organized workshops about the identification and understanding of forms of violence against women, stereotypes, prejudices regarding violence, and also myths deconstruction that are being propagated related to the subject on which participated 91 girls. At the base of the workshops stayed a toolkit regarding sexual and gender-based violence elaborated during the project. The events were presented by Laura Neagu, Andra Amzarescu, and Roya Baciuc, members of the FILIA Center.

Screening for Cervical Cancer and Early Treatment - SCCUT

In August, we started a project during which 170.001 women from South Muntenia will receive free HPV and pap smear. The POCU project is conducted with our partners Sastipen, Renașterea Foundation, and the Institute for Mother and Child's Health. The role of FILIA is to support uninsured women regarding the identification of the best methods by which they can be insured medically and to accompany those during the investigations and medical interventions at Polizu Hospital from the Capital.

The main demands were the adaptation of support services and counseling of women on the difficulties and risks caused by the pandemic, financing from local budgets for social, public, and non-governmental services necessary for survivors of violence and communities, and adoption of legislation on the implementation of a surveillance system of aggressors using electronic bracelets.

At the same time, we published and analyzed the annual statistics relating to domestic violence collected by the General Inspectorate of the Romanian Police and we submitted a Shadow Report to the Council's Expert Group of Europe on action against violence against women and domestic violence (GREVIO).

Referral to DIICOT – child pornography

During the state of emergency, several victims of the revenge porn phenomenon contacted our colleagues from GirlUp Romania regarding the Instagram accounts on which photos of underage girls are published. Following the verification carried out by FILIA together with GirlUp, dozens of Instagram accounts were found, as well as dozens of Telegram chats in all Romanian counties, sometimes even at the high school or city level which over 30,000 users posted intimate photos of underage girls. The FILIA Center has filed two complaints to DIICOT against these social networks based on the law on child pornography.

Reproductive Rights

The pandemic has further restricted women's access to on-demand abortion services. In March 2020, at the beginning of the state of emergency, the Ministry of Internal Affairs suspended non-urgent medical procedures. The FILIA team called 112 hospitals (which are listed in our database as hospitals where abortions are performed on request) and found that only 12 of these hospitals, none in Bucharest, still performed this procedure, following the order of the Ministry of Internal Affairs.

Of the 3 largest private hospital networks, only one performed this procedure, and the cost was 3000 RON. We initiated an address to the Ministry of Health, co-signed by five other organizations which work in the field of reproductive health. Following this, the Ministry sent to all Public Health Directorates in the country a document requesting access to abortions on demand, the recommendation being the large-scale implementation of abortion services drug. Following this approach, another 20 hospitals began to provide abortion services nationwide.

Petitions to Prosecutor's Office - Colo and Dana Budeanu cases

In March, we filed a petition at the Prosecutor's Office near the First Sector's Court regarding an edition of Dana Budeanu's show Verdict in which she discriminated against women and instigated gender-based violence. The episode, viewed by over 290.000 people on YouTube and over 19.000 on Facebook, strengthens discriminatory attitudes against women and legitimates a culture of violence directed toward women through arguments that she brings to justify and encourage such acts, promoting an abusive relationship model, in which the man dominates the women by abusive behavior, both psychically and psychological, through fear. Following the petition, more people filed similar petitions and it started a criminal prosecution.

In June, we filed a petition to the General Prosecutor's Office against Alexandru Balan, a vlogger with over 850.000 followers, mostly youngsters, for instigation of sexual violence against underage people. He explained in detail in a video how he would rape underage girls. Also, the Police took notice. Following the reactions in online and mass media, the vlogger was on remand for 24 hours, put under juridical control, and received the interdiction to publish content online for 2 months. Finally, Alexandru Balan admitted his guilt and paid a fine of 24.000 lei.

Collaboration with public institutions and Embassies from Bucharest

FILIA representatives participated this year at many conferences and roundtables for preventing and combating violence against women, access to reproductive health, and gender equality, such as the conference organized by the Center of Gender Equality Policies, the Master of Gender Equality Policies in the Romanian and European context, in partnership with Canada Embassy in Romania and France Embassy in Romania on 6th March regarding the challenges of gender equality, a conference organized by the National Agency for Gender Equality relating the inclusion and gender equality post-2020 and a roundtable organized by France Embassy on 10th December regarding domestic violence. On 22nd July 2020, we analyzed the situation in East Europe concerning the impact Covid had on equality between women and men, an event organized by the Francophone network for equality between women and men: Webinaire du Réseau Francophone pour l'Egalité Femme Homme (RF-EFH) - RF-EFH.

Furthermore, FILIA Center was mentioned during the Report concerning the respect for human rights in Romania, realized by the State Department of United States of America.

MASS-MEDIA PRESENCE

Foto: Gettyimages

Rețeaua pentru prevenirea și combaterea violenței împotriva femeilor, formată din mai multe ONG-uri, îi cere ministrului de Interne Marcel Vela măsuri urgente în acest domeniu. Scrisoarea deschisă vine după ce o tânără de 17 ani a fost incendiată de un bărbat condamnat pe viață și eliberat condiționat, împotriva căruia fata făcuse plângere la poliție, și după cazul vloggerului Colo, după ce tânăra care l-a denunțat a primit amenințări.

„De ce nu se poate face luarea în evidență a unei femei însărcinate pe baza unui test de sarcină și direct în sistemul IT, fără hârtii?”, se întreabă Miruna Pantel, reprezentant al Centrului Filia, o organizație care promovează drepturile femeilor.

Perspectiva finanțării adecvate - peste trei ani și doar la spital

Rămâne însă problema majoră a furnizorilor care intră în contract cu casele de asigurări. Sunt foarte puțini, iar motivul este simplu: nu merită financiar, la fel ca în cazul medicamentelor ieftine, care dispar din România pentru că statul fixează prețuri prea mici la ele.

În urma unei întrebări adresate de Europa Liberă, vicepreședintele CNAS, Camelia Ghiveciu, admite că „noi nu mai știm cât costă un serviciu medical (...). Știm cât costă materialele, dar nu știm cât costă manopera”, spune aceasta făcând referire la serviciile medicale prestate în spitale.

DIN ARTICOL

Textul integral al scrisorii deschise:

Centrul FILIA, alături de alte 11 ONG-uri, au trimis marți către Ministrul Sănătății, Nelu Tătaru, o scrisoare deschisă prin care cer demiterea purtătorului de cuvânt a Ministerului, Oana Grigore, conform unui comunicat transmis miercuri.

Săptămâna trecută, purtătorul de cuvânt al Ministerului Sănătății, Oana Grigore, a făcut declarații controversate pentru [Pressone.ro](#), după ce o femeie din județul Prahova a murit, la începutul săptămânii, în timpul unei intervenții medicale. Oana Grigore a declarat că a fost o intervenție medicală de rutină.

Cum afectează pandemia viața femeilor? Cum e să lucrezi de la domiciliu și să ai și copiii acasă, preșcolari care nu mai merg la grădiniță sau școlari care fac cursurile online și trebuie ajutați și supravegheați? De ce societatea consideră în continuare că treburile casnice și îngrijirea copiilor sînt în primul rînd, dacă nu cumva exclusiv, responsabilitatea femeii? Cum am putea ajunge la o împărțire echitabilă a muncii casnice, la parteneriat în viața privată? Pune pandemia o presiune și mai mare pe umerii femeilor? Invitațiile noastre sînt activista [Miruna Pantel](#), de la Centrul FILIA, și jurnalista [Ana Maria Ciobanu](#) de la „Decât o Revistă”.

Protest în București pentru siguranța femeilor și în pandemie: „Am stat bătută și chinută. Nu vreau ca fata mea să creadă că așa e normal”

De [Andreea Archip](#), [Dumitru Angelescu](#) (foto), Duminică, 25 octombrie 2020, 20:53. Ultimul update Luni, 26 octombrie 2020, 07:28

Zeci de femei s-au întrînit în Parcul Colțea din București să protesteze pentru protejarea victimelor violenței domestice. Activistele spun că pandemia le-a agravat situația acestor femei, care acum mai mult ca oricînd au nevoie să știe că nu sînt singure și că autoritățile își fac treaba.

Libertatea > Știri > Știri România

Centrul FILIA despre partidul AUR: „Următorii 4 ani vor fi o provocare pentru protejarea drepturilor femeilor, în special a drepturilor reproductive”

De [Iulia Roșu](#), Marți, 08 decembrie 2020, 20:00. Ultimul update Marți, 08 decembrie 2020, 20:15

Organizația neguvernamentală [FILIA](#), care luptă pentru drepturile femeilor, atrage atenția că intrarea Alianței pentru Unirea Românilor (AUR) în Parlament, cu un rezultat de cel puțin 9%, arată că România nu mai este ferită de mișcarea fundamentalistă conservatoare din Europa.

România, țara unde tot mai multe femei sunt agresate de soți. "Eram un fel de slugă"

Agresorii care încalcă ordinele de protecție riscă de acum până la 5 ani de închisoare fără suspendare potrivit, unei legi promulgate recent de președintele Klaus Iohannis.

Schimbarea era esențială într-o Românie în care mulți soți își calca în picioare partenerele de viață. Suntem pe primul loc în Uniunea Europeană la acest capitol rușinos, iar datele oficiale arată că o femeie din patru a fost agresată fizic sau sexual de cel de acasă.

GÂNDUL LIVE. Andreea Rusu, Asociația Filia, după afirmațiile lui „Colo”: Acest discurs este deosebit de periculos în România pentru că 55% dintre români consideră că violul este justificat în anumite situații

60% din spitalele de stat din Romania nu fac avorturi la cerere. Incalcarea convingerilor morale ale medicilor, un motiv des invocat

Joi, 05 Noiembrie 2020, ora 13:48

2758 citiri

Test de sarcina FOTO Pixabay

Din 134 de spitale de stat care au raspuns la un chestionar privind intreruperile de sarcina, 57,7% nu fac avorturi la cerere in prezent. Refuzul bazat pe incalcarea convingerilor morale ale medicilor, in baza Codului de Deontologie Medicala al Colegiului Medicilor din Romania, este unul dintre motivele invocate cel mai des de aceste spitale, potrivit datelor obtinute si analizate de Centrul FILIA.

Ministerul Sanatatii a colectat informatii de la 134 de spitale de stat si 16 spitale, clinici si cabinete private din sistemul de sanatate publica, precizeaza ONG-ul.

"Ministerul Sanatatii a colectat informatii de la 134 de spitale de stat si 16 spitale, clinici si cabinete private din sistemul de sanatate publica, precizeaza ONG-ul."

Femeile obțin greu accesul la avort, întrucât pandemia înmulțește obstacolele din Europa: Avortul, o „procedură non-esențială” în România / Ce soluție a găsit Regatul Unit

de N.O. HotNews.ro

Luni, 16 noiembrie 2020, 23:50 Actualitate | Internațional

Facebook Twitter Email + Mai multe...

Linii telefonice de ajutor din întreaga Europă au înregistrat o creștere a cererii pentru serviciile lor, deoarece pandemia de coronavirus înmulțește obstacolele cu care se confruntă numeroase femei pentru a avea acces la avort, scrie agenția Reuters, citată de Rador.

Protest în Polonia împotriva legii anti-avort
Foto: Cezary Kowalski/SOPA Images

Cu toate că avortul e legal în cea mai mare parte a Europei, unele femei întâmpină probleme când vor să-și facă programări în sistemele publice de sănătate copleșite de pandemie. Altele nu pot scăpa de parteneri abuzivi din cauza interdicțiilor de circulație, au declarat pentru Reuters mai multe ONG-uri și femei care au optat să facă avort.

În țările în care avortul e extrem de restricționat, precum Polonia, femeile s-au văzut puse în imposibilitatea de a călători în străinătate pentru a-și intrerupe o sarcină nedorită, întrucât pandemia a anulat zboruri și a închis granițe.

„În unele cazuri a complicat avortul la modul catastrofal”, a declarat Mara Clarke, șefă a asociației britanice Abortion Support Network (ASN), care ajută femeile să facă avort în străinătate.

DOR

Egalitate în munca de acasă?

O conversație despre maternitate într-o lume care cere mamei să le facă pe toate, despre munca invizibilă a femeilor și politici publice de îngrijire a copiilor.

de Oana Sandu

SUPPORT US!

Thank you for supporting us so far. Over the last years, we managed to build a community – a community of people that believe in gender equality, that women to be safe and to have their voices be heard.

If you want to support FILIA's activities and want to be part of our community, we are waiting for you. You can either be a volunteer at our office, you can help online or want to offer your services pro bono. YOU have an important role for us. With you, you can gain experience and you can promote and sustain women's rights and gender equality. Get involved and help us make women's voices to be heard!

With your support, we will continue supporting vulnerable women, we will continue to raise awareness on topics related to feminism and women's rights, and we will continue to fight for your rights.

Sadly, we cannot sustain this fight by ourselves. Any donation, no matter how small, can help us continue making women's voices be heard.

You can help us through a one-time or recurrent DONATION or through SPONZORSHIP.
